

Interactive Learning Log Processing

Ideas about how to process - Left-sided possibilities

Try this...ask yourself/respond to questions about what you learned on the right side...

- How/why?
- What if?
- What was the purpose?
- What is big picture?
- What might happen next?
- What questions does this raise for me?
- What information is important?
- How can I remember this info?
- How can I organize this info?
- What does this remind me of?
- How does this relate (to something already learned)?
- What is my opinion?
- How would I improve this/change this?
- What more do I need to know?
- What is the most interesting?
- What do I still wonder about?
- What is the worst case scenario?
- What is key idea?
- What would happen if...?
- Ask my own question!

Glue this side into your notebook

Then, create something for yourself to help you answer those questions!
