

Name: _____

Period: _____

Force Homework Practice

1. What is a field (*in your own words*)?
2. Draw a field around this magnet. Put a star where the force is strongest.

3. Draw a field around this planet. Put a star where the force is strongest.

4. Draw a field between these oppositely charged objects. Put a star where the force is strongest to the + charged object.

5. Draw a field between these same pole magnets.
